GET WELL · STAY WELL

 **zepter®**

GET WELL STAY WELL

Frellux™ represents an **evolution in personal care**, combining **Electro-Frequency (EF) Acupuncture** and **Red Hyperlight Frequency (LF)** within one intelligent system for **effortless, fast, and effective support** for tension, everyday aches, and natural tissue comfort — while also supporting **skin vitality** and **surface recovery**.

Anytime, anywhere.

Frellux™ features three selectable treatment modes

1. Electro-Frequency Acupuncture Stimulation

19 adjustable intensity levels for personalized comfort and depth.

2. Red Hyperlight Frequency Stimulation

5 dedicated programs designed for different applications and sensitivities.

3. Electro-Frequency Acupuncture + Red Hyperlight Frequency (Synergy Mode)

Combined application for a more comprehensive and enhanced effect.

TWO FREQUENCIES. TWO MECHANISMS OF ACTION. ONE DEVICE.

GET WELL • STAY WELL

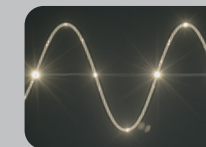

One intelligent solution for comfort, circulation, and recovery.

Red Hyperlight Frequency

Delivers focused hyperlight energy into the tissue to help support microcirculation and cellular activity. By enhancing the flow of oxygen and nutrients, it promotes a balanced, healthy biological response in stressed or overworked areas.

**Non-invasive.
Effortless. Effective.**

Electro-Frequency Acupuncture

Works deeper within the neuromuscular structure to support the body's natural bioelectrical signaling. It helps relax tight muscle fibers, promotes neuromuscular comfort, and contributes to a faster, more natural recovery in fatigued areas.

36 gold-coated micro-needle grid

ELECTRO-FREQUENCY ACUPUNCTURE STIMULATION

Activate the body's own electrical language — gently, precisely, effectively.

Frellux™ delivers advanced Electro-Frequency acupuncture stimulation through a **36 gold-coated micro-needle grid**. The wide, precision-engineered design distributes stimulation evenly across the treatment area to support the body's **natural bioelectrical communication**, local circulation, relaxation, comfort, and everyday recovery.

With **19 adjustable intensity levels**, every session can be tailored from ultra-gentle to more intensive support—giving you a personalized experience that feels precise, comfortable, and easy to integrate into daily life.

36 gold-coated micro-needle grid

19 adjustable intensity levels

Easy wide coverage

Gentle support for comfort, circulation & recovery

Feel the difference. Use Frellux™ as part of your daily ritual for better comfort, better function, and a better quality of life.

Active Electro-Frequency Acupuncture

BENEFITS OF ELECTRO-FREQUENCY ACUPUNCTURE STIMULATION

Acupuncture stimulation supports local circulation, helping to improve oxygen and nutrient delivery to tissues. It helps the body release tension faster and restore normal function in overworked areas.

By enhancing the body's natural communication between cells, acupuncture therapy promotes comfort, supports more comfortable movement, and helps you feel your best—every day.

Because when the body communicates better, it feels better.

- ⊕ **Less muscle tension and tightness**
- ⊕ **Reduced stiffness, especially after sitting or inactivity**
- ⊕ **Relief from everyday aches and discomfort**
- ⊕ **Easier, more comfortable movement**
- ⊕ **Less tired or heavy feeling in the body**
- ⊕ **Faster recovery after physical effort**

ZC60-X[®]

a quantum mechanical light transformer

From ordinary light to structured support.

Any light passing through the ZC60-X[®] optics is transformed into a uniquely structured, hyper-harmonized light complex — called Hyperlight.

Within the optical system, ZC60-X[®] helps reorganize incoming light into a more ordered, symmetrical form. This refined light structure expresses the idea of precision, resonance, and balance.

Inspired by the resonance principle of biomimicry, structured Hyperlight is designed to interact gently and effectively at the level of superficial tissues and biomolecular processes — helping support comfort, rebalancing, and tissue recovery

Structured light output

Symmetry inspired design

Biomimicry Resonance

Order in light.
Harmony in support.

RED HYPERLIGHT FREQUENCY STIMULATION

Targeted hyperlight support for recovery, regeneration and comfort.

Frellux™ utilizes a **640–660 nm** Red Hyperlight wavelength, designed to interact with the skin and superficial tissues through **photobiomodulation**. This light supports natural cellular activity and healthy microcirculation, helping improve oxygen and nutrient delivery at the surface level.

As a result, it helps calm sensitive or reactive areas, support tissue comfort, and promote recovery after stress or strain. It also contributes to improved skin tone, smoother texture, and a more balanced, healthy-looking appearance.

LF Mode offers five distinct programs, ranging from steady continuous Hyperlight that supports circulation and deep tissue comfort to high-frequency pulsation Hyperlight up to 8,000 Hz, designed for gentle stimulation of sensitive or delicate areas without significant thermal stress.

Supports microcirculation

Promotes recovery & comfort

Helps restore skin vitality

Improves oxygenation

5 INDIVIDUALLY SELECTABLE HYPERLIGHT PROGRAMS

Choose the program that best matches the moment — from steady support to ultra-fine pulsed Hyperlight.

PROGRAM	FREQUENCY	CORE CHARACTERISTICS	TYPICAL SUPPORT
1.	Continuous	Strong, steady illumination	Circulation and stiffness relief
2.	10 Hz	Slow rhythmic pulses	Muscle relaxation & comfort
3.	600 Hz	Revitalizing pulses	Circulation and collagen activity
4.	3000 Hz	Non-heating pulses	Sensitive or reactive tissue
5.	8000 Hz	Ultra-fine pulses	Surface comfort and delicate skin

Five modes. One intelligent source of light support.

BENEFITS OF RED HYPERLIGHT

- ⊕ Softens stiffness in muscles
- ⊕ Eases localized musculoskeletal discomfort, supporting better mobility
- ⊕ Soothes irritation-prone or highly sensitive areas
- ⊕ Calms and comforts reactive areas
- ⊕ Supports natural tissue repair processes
- ⊕ Enhances skin tone and natural radiance
- ⊕ Supports skin firmness and elasticity
- ⊕ Helps restore the skin after environmental or physical stress

Frellux™ is an ideal handheld, on-the-go solution for both physical comfort and cosmetic restoration.

SAFE & RESPONSIBLE USE

Designed for confidence, comfort,
and informed daily use.

- ⌚ For optimal results, we recommend using the pre-set treatment time of 10 minutes, after which the device switches off automatically. Shorter sessions can be performed by switching the device off at any time.
- 🌀 During use, apply slow, circular movements to avoid localized overheating during longer sessions and to assure even energy distribution when treating larger areas.
- ⚠️ **Avoid Electro-Frequency (EF) Acupuncture use:**
 - On open wounds, inflamed, irritated, or broken skin.
 - If you have a pacemaker or any implanted electrical or electronic medical device.
 - During pregnancy, unless advised by a healthcare professional.
 - Directly on the head, the front of the neck (thyroid area), or along the spine.
 - If you have active bleeding, hemorrhaging tendencies, or blood clotting disorders
- ⚠️ **Avoid Red Hyperlight Frequency (LF) use if you have:**
 - Known photosensitivity or light-sensitive conditions.
 - Epilepsy or a history of seizures.

If you have a medical condition, are undergoing treatment, or are unsure whether this device is appropriate for you, consult a qualified healthcare professional before use.

Always refer to the instructions for use provided with the device for complete guidance on safe operation.

1. Electro-Frequency Intensity levels: 1-19

2. Red Hyperlight program 1-5

3. Battery level

TECHNICAL INFORMATION

Frellux™	AP-001
MADE IN	POLAND
WEIGHT	250G
CHARGING TIME	3 HOURS
IMPULSE INTENSITY ADJUSTMENT	YES – FROM 1 TO 19
APPLICATION	MAX 20 CONSECUTIVE MINUTES
TOTAL OPERATING TIME AFTER BATTERY CHARGE	8 CYCLES × 10 MIN. WITH A 3-MINUTE BREAK
OUTPUT VOLTAGE	5.0 V DC
CHARGER	USB-C 5.0V DC
